SUMMARY

Full stack developer with a backend-heavy focus, building production SaaS, mobile, and web systems on Django, NestJS, Next.js, and React Native. Owner of **Raidium** — a multi-tenant guild management SaaS serving 6+ MMORPG communities with 71+ API endpoints and on-chain crypto payments. BSIT *Cum Laude* graduate (Best Capstone Project, Programmer of the Year).

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, C#
Backend: NestJS, Django, Node.js, Express, REST API design
Frontend: Next.js, React, React Native, Expo, Tailwind CSS, ShadCN/ui
Databases: PostgreSQL, MongoDB, Redis, SQLite, Firebase RTDB
DevOps & Infra: Docker, Coolify, NGINX, Certbot/SSL, Linux VPS, SSH hardening
Integrations: Prisma, Socket.IO, Stripe, PayMaya, KAIA blockchain, Azure OCR, Discord webhooks, Git/GitHub

PROFESSIONAL EXPERIENCE

Full Stack Developer (Backend-Focused) · Realty ONE Group Philippines · Remote (General Santos, PH) May 2026 – Present

- Collaborate with a team building an internal operations platform for a real estate franchise.
- Back-end-focused full stack work spanning office, brokerage, agent, listing, and transaction management.
- Contract role — remote.

Software Developer · Simply Expanding Digital Marketing Services · General Santos City, PH Aug 2025 – Apr 2026

- Led backend development for **Alertison** — a real-time React Native family-safety app with Socket.IO chat, geofence-based safety alerts, SOS push notifications, and background location tracking via expo-task-manager.
- Led backend for **Ultima Productivity**, a time-boxing mobile app with location pinning and real-time notifications.
- Maintained the **Better Teaching Solutions** web app and **Leaf to Life** CRM.

Stack: NestJS, Node.js, Express, MongoDB, Socket.IO, React Native, Expo, Firebase

Hardware & Network Support Intern · CMO-ICTD, LGU General Santos City Jan 2025 – May 2025

- Maintained network systems across LGU offices and updated WordPress sites — shipped a searchable executive order archive feature for public access.
- Performed diagnostics and repair on government workstations; collaborated with staff and other interns in a team-based environment.

SELECTED PROJECTS

Raidium · Lead Developer · raidium.quest Aug 2025 – Present

- Multi-tenant guild management SaaS for MMORPG communities with guild-scoped data isolation and a 4-tier RBAC hierarchy; shipped **71+ REST API endpoints** spanning OCR-verified attendance (Azure OCR), points economy with weekly rankings, marketplace with auctions, and Discord webhook reminders.
- Built **on-chain payment verification on the KAIA blockchain** for a 5-tier USDt subscription system (\$3–\$10/mo) — eliminated payment processor fees and chargebacks.

Stack: Next.js 15, React 19, MongoDB, Tailwind, ShadCN/ui, KAIA blockchain, Azure OCR, QStash, Cloudinary

Integrated Fire Services DSS · Lead Backend Feb 2026 – Present

- Decision support system automating the fire safety project lifecycle for compliance workflows, with a 6-rule decision engine and a 15-model Prisma schema for RFI management and fee proposals.
- Shipped **57 documented API endpoints** across 15 NestJS modules, backed by **217 passing tests** across 20 test suites.

Stack: NestJS, TypeScript, Prisma, PostgreSQL, Swagger, Bun

GYOCC.online · Backend Programmer (Capstone) Apr 2024 – Nov 2024

- First web management system for the Gensan Youth Orchestra & Choir Corporation — concert ticketing with QR validation, lesson scheduling, and analytics — reduced event coordination workload by **80%**. Integrated PayMaya checkout and SMS/email 2FA via the Google Email API.

Stack: Django, PostgreSQL, Bootstrap, PayMaya API, Google Email API

GLiberator · Solo Developer Apr 2020 – May 2025

- Discord bot for automated emoji submission and community voting, **maintained for 5+ years**. Implemented 13+ custom commands including vote thresholds, expiration handling, and image deduplication checks against a persistent SQLite store.

Stack: Python, discord.py, SQLite

EDUCATION

Bachelor of Science in Information Technology · STI College, General Santos City 2021 – 2025

- Cum Laude** · Best Capstone Project Awardee · Programmer of the Year Awardee
